Westbound Tysons Boulevard to Close at Route 123 Overnight Saturday, April 16

Dulles Corridor Metrorail Project crews will be constructing the bridge spanning over Tysons Boulevard at Route 123 overnight Saturday.

Between 11 p.m. and 5 a.m. on Saturday night, April 16, the turn lanes on to westbound Tysons Boulevard from both northbound and southbound Route 123 will be closed.

Northbound Route 123 traffic should detour before that intersection, by turning left on to International Drive, then making an immediate right on to Galleria Drive to access westbound Tysons Boulevard.

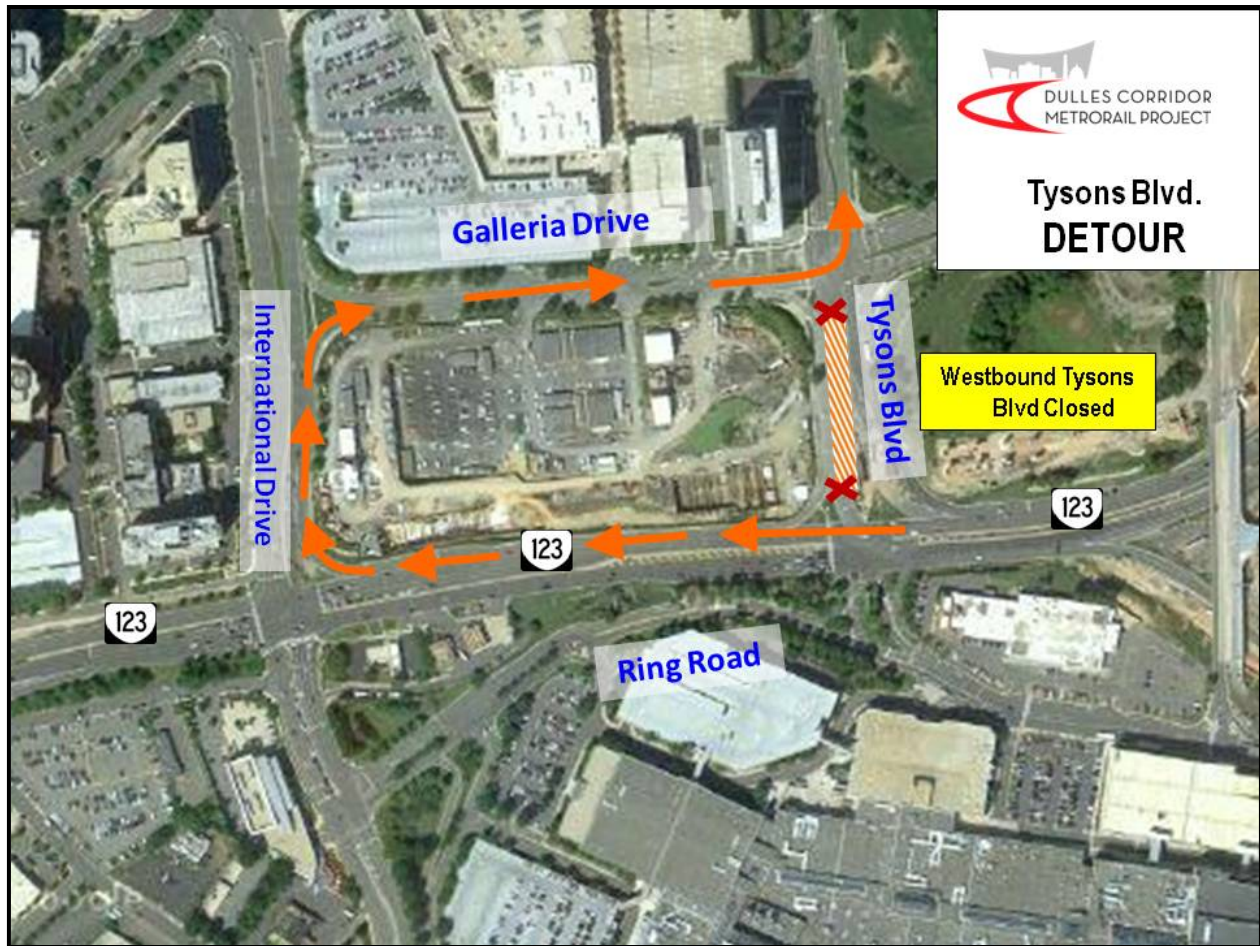

Southbound traffic will bypass the intersection and take the next right on to International Drive, then right on Galleria Drive (*see map*).

The eastbound lanes of Tysons Boulevard will remain open.

In case of inclement weather, the work will be rescheduled to overnight Sunday, April 17, or Monday, April 18.

Motorists are encouraged to use extreme caution when traveling through this area. Additional closures of this intersection will be required over the next two weeks as those bridges are constructed over the road. More closure information will be released as soon as it is scheduled.

SEE MAP BELOW

If you have construction-related emergencies, please call the Dulles Corridor Metrorail Project Hotline at 877-585-6789. For further information about the project, please visit our project website at www.dullesmetro.com or call 703-572-0506.
