## Important Lane Closures, April 17-23, 2011

### REMINDER: Paving Operations at Dulles Connector Road/Route 123 Interchange Sunday Night, April 17

Paving operations at the interchange between the Dulles Connector Road (Route 267) and Route 123 are scheduled to occur in the overnight hours of Sunday night, April 17 between midnight and 5 a.m. All operations will be completed before the Monday morning rush hour.

The following ramps will be closed for these operations:

#### **Ramp from northbound Route 123 to eastbound Route 267**

**Detour:** Continue north on Route 123 (Dolley Madison Boulevard), then turn left on to Georgetown Pike. Continue on Georgetown Pike and enter I-495 south. Drivers can rejoin the eastbound Connector Road (Route 267) from I-495.

#### **Ramp from eastbound Route 267 to northbound Route 123**

**Detour:** Traffic will be allowed to use the exit ramp to southbound Route 123 instead. At the bottom of the ramp, drivers will be permitted to turn left on to northbound Route 123 at the signalized intersection.

In addition, the left thru lane of northbound Route 123 will be closed from Anderson Road to the Dulles Connector Road overpass beginning at 9:30 a.m.

Every effort will be made to minimize the noise associated with this work. **However, paving is an extremely dangerous activity and will require the use of backup alarms to ensure workers' safety.**

### **Hunter Mill Road Closures Postponed; No Reschedule Dates Announced Yet**

Earlier this week, the Dulles Corridor Metrorail Project announced overnight closures of Hunter Mill Road at the Dulles Toll Road for April 18-21. That work has been postponed with a date to be announced as soon as the work and road closures are rescheduled.

**REMINDER: Ramp from Southbound I-495 to Southbound Route 123 to Close Monday Night, April 18**

The ramp from southbound I-495 to southbound Route 123 will close again overnight Monday, April 18, to create a safe work zone for aerial guideway construction.

Weather permitting, this ramp is scheduled to be closed between 11 p.m. and 5 a.m.

Traffic to southbound Route 123 will be detoured by continuing south on the beltway and exiting westbound Leesburg Pike (Route 7). Drivers can then use International Drive to access Route 123, or continue on Leesburg Pike (Route 7) until it intersects Route 123.

**Major Water Line Work Continues through April 23, Will Close Spring Hill Road at Route 7 Overnights**

Crews will continue installation of a major waterline at the intersection of Leesburg Pike (Route 7) and Spring Hill Road. This will require the closure of all lanes of northbound Spring Hill Road for a 150-foot stretch north of Route 7.

Traffic from Route 7 will be detoured to use Westpark Drive, to Greensboro Drive, to access Spring Hill Road. Southbound Spring Hill Road traffic wishing to access Route 7 will use the reverse of that route.

This work is expected to last through the overnight hours of Saturday, April 23, though closures will not be used if work is completed before that date.

**No Lane Closures on I-495 Scheduled Next Week**

Even though construction of the bridge over the I-495 Capital Beltway will continue next week, no lane closures will be needed.

As a reminder, various closures of the beltway can be expected throughout the remainder of 2011.
