## **POSTPONED: Tonight's Scheduled Lane Shift on Westbound Route 7 West of Route 123 in Tysons Corner**

A lane shift planned for tonight on eastbound Route 7 between Route 123 and Westpark Drive in Tysons Corner has been postponed until Sunday night April 3, weather permitting, when traffic in this area will be reduced to a single lane because of Dulles Corridor Metrorail construction.

Crews will be moving the westbound lanes of Route 7 slightly north to allow construction of the west end of the two tunnels that are being built to carry future Dulles Corridor Metrorail trains from the Tysons Central 123 Metrorail Station at Route 123 and Tysons Boulevard into the Tysons Central 7 station in the median of Route 7 near SAIC and Marshalls.

The lane shift will begin at 10:30 p.m. Sunday night and will require the closing of the right and center thru lanes. Only the left lane will remain open. At approximately 2 a.m. Monday morning, the left and center lanes will close and traffic will be directed to use the newly opened right lane. All work will be completed by 7 a.m. Monday.

Police will be on site for motorist safety.
