REMINDER: Utility Work Planned along Dulles Connector Road Thursday and Friday Nights, Sept. 29-30

**Residents between Magarity Road and Connector Road/I-66 merge
may hear additional noise; lane closings scheduled**

Residents who live along sections of the Dulles Connector Road (Route 267) from Magarity Road to the West Falls Church station in the McLean/Falls Church area may hear some construction noise because of utility work planned for Thursday, Sept. 29 and Friday, Sept. 30 by the Dulles Corridor Metrorail Project

Every effort will be made to minimize the noise associated with this work. **However, some activity is extremely dangerous and may require the use of backup alarms to ensure workers' safety.**

Drivers in this corridor should be alert for the following lane closures that will be in place during this work:

- Thursday, Sept. 29 – Left thru lane closed for a 2,000-foot stretch west of the Idylwood Road bridge, 9:30 p.m. to 5 a.m.
- Friday, Sept. 30 – Right thru lane closed from the Idylwood Road overpass to the bus ramp exit, 10 p.m. to 7 a.m. **Note for bus traffic:** The bus lane will be closed to allow trench work across the bus lane along this stretch of the Connector Road. Buses will be shifted into the main traffic lanes prior to the work area, around the work zone, then back into the bus lane to allow them to exit into the West Falls Church transit station.

Police will be onsite for the lane closings for safety during nighttime work hours.
