## Important Lane Closures for Next Week

### I-495 South (Outer Loop) Off-Ramp to Southbound Route 123

Monday through Wednesday, Nov. 16-18, the shoulder of the exit ramp from the Capital Beltway Outer Loop to southbound Route 123 will be closed. Traffic will still be able to use the ramp, but drivers should expect a narrowing of the lanes and be aware of crews placing concrete barriers. This work will take place between 9:30 a.m. and 3:30 p.m. each day.

### Short-Term Traffic Shift Beginning Nov. 18

Beginning Wednesday night, Nov. 18, a new traffic pattern will begin on northbound Route 123 from just south of Colshire Drive to the Dulles Connector Road (Route 267) overpass. Northbound lanes will shift approximately eight feet to the east (right) to pass a work area. This traffic pattern will be in place for approximately four to six weeks as crews complete a major waterline installation in the area.

### Gas Main Installation on Chain Bridge Road at Tysons Boulevard

Between Monday, Nov. 16 and the Thanksgiving holiday, the two right-turn lanes to Tysons Boulevard and the right through lane of southbound Chain Bridge Road (Route 123) will be closed **on overnights only**. Drivers should follow Chain Bridge Road south, turn right on International Drive, then veer right on to Galleria Drive to access Tysons Boulevard.

### Night Work on Leesburg Pike (Route 7) and Westpark Drive

All next week, the right lane of eastbound Leesburg Pike (Route 7) will be closed in two sections so utility crews can pull and splice fiber cables:

- From the Dulles Toll Road on-ramp to Westwood Center Drive, and
- Between Spring Hill Road and Marshalls Drive (Tysons Square Shopping Center)

The same type of work, at the same time, will be performed on southbound Westpark Drive, between Greensboro Drive and Leesburg Pike (Route 7)

This work will last from 9:30 p.m. to 5:00 a.m. Monday through Thursday, and 10:00 p.m. to 7:00 a.m. on Friday night. Police will be on site for motorist safety.

### **Ramp Work at Dulles Toll Road (Route 267) and Leesburg Pike (Route 7) Interchanges**

The following ramps will experience shoulder closures overnights Monday and Tuesday, Nov. 16-17. Traffic will still be allowed to use the ramps:

- Eastbound Dulles Toll Road (Route 267) exit ramp to eastbound Leesburg Pike (Route 7)
- Westbound Leesburg Pike (Route 7) entrance ramp to eastbound Dulles Toll Road (Route 267)

### **Dulles International Airport Access Highway and Dulles Connector Road (Route 267)**

Construction of caissons in the median of the Dulles International Airport Access Highway (DIAAH) continues. All next week, the left lane of the eastbound DIAAH will be closed during the day between Wiehle Avenue and Hunter Mill Road.

The left lane of the Dulles Connector Road will be closed again next week between Magarity Road and Route 123 (after the split) so crews can deliver material to the work area.

### **Reminder: Permanent Service Road Closure on Route 7**

The service road of eastbound Route 7 between Pike 7 Plaza and the Koons GM car dealership began closing permanently last week. Crews are closing portions of the service road one at a time until this entire stretch is eliminated.

Business access from Route 7 will remain open, but motorists should expect some alternate entrance routes as this service road is eliminated. Koons customers should enter the property via southbound Route 123.

### **Old Chain Bridge Road**

Next week, the southbound lane of Old Chain Bridge Road between Hallcrest Street and Seneca Avenue will close again so crews can perform pier construction near the area. Traffic will be reduced to one lane, and a flagger and police will be on site at all times for motorist safety.

*All work is weather permitting and subject to change. For construction-related emergencies, call the Project Hotline at 877-585-6789. For information about the project, visit [www.dullesmetro.com](http://www.dullesmetro.com) or call 703-572-0506.*
