Important Lane Closures April 12-16, 2010

I-66 Lane Closing Next Week , Truss Assembly Coming, Lots of Route 7 Work Set

REMINDER: Significant Work Along Leesburg Pike (Route 7) Next Week

Drivers in Tysons Corner can expect a very large amount of construction work in both directions of Leesburg Pike (Route 7), between the Dulles Toll Road (Route 267) and Chain Bridge Road (Route 123). Crews are working in many different areas to complete utility relocations and paving and restorations. At the same time, additional construction on retaining walls and service road closures are under way to prepare for the major traffic shifts in the median around where the two future Metro stations will be built.

Work on Leesburg Pike (Route 7) is scheduled for daytime and nighttime hours all next week.

Truss Assembly Progressing in Dulles Connector Road Median

Crews began assembling a large truss in the median of the Dulles Connector Road (Route 267) where it crosses over Chain Bridge Road about two weeks ago. If traveling this route, you will see the truss' progress – it is a large blue and yellow structure.

A truss is a massive piece of equipment that will be used to build the aerial track support of the future rail line. That segmental track work is expected to begin in May, after the truss is put together and tested.

Daytime Lane Closure on Westbound I-66 at Dulles Connector Road

Caisson installations continue in the area of the I-66/Dulles Connector Road (Route 267) split. The left lane of westbound I-66 will be closed April 12 through 15, 9:30 a.m. to 3:30 p.m., and Friday, April 16, from 9:30 a.m. to noon, to provide for a safe work area away from traffic.

In addition, closures will continue in several sections of the service roads adjacent to east and westbound Leesburg Pike (Route 7); Leesburg Pike between Route 123 and the Dulles Toll Road. Access to all businesses will be maintained throughout the work periods. Also, intermittent lane closures on the Dulles International Airport Access Highway (DIAAH) and Dulles Toll Road should be expected.

Motorists should stay alert and be prepared to alter their travel along these roads.
