Dulles Connector Road Ramp to Close Nights Feb. 1-5

The exit ramp from the eastbound Dulles Connector Road (Route 267) to northbound Route 123 (Dolley Madison Boulevard) toward McLean will be closed from Monday, Feb. 1, through Friday night, Feb. 5, because of Dulles Corridor Metrorail Project construction work.

Weather permitting, the ramp will be closed from 11 p.m. to 5 a.m. to prepare site construction for one of the many piers that will support the aerial guideway for the rail system. This pier will be located in the cloverleaf of this ramp.

Drivers will be directed to detour by using the exit ramp to southbound Route 123, and using the traffic signal to access the northbound lanes. Police will be on site for motorist safety. *(See attached map.)*

Motorists should watch for signage and use extreme caution when driving in the area.

If you have any construction-related emergencies, please call the Dulles Corridor Metrorail Project Hotline at 877-585-6789. For additional information about the project, please visit our project website at www.dullesmetro.com or call 703-572-0506.
