Important Lane Closures August 2-6, 2010

Overnight Paving along Route 123 Area to Begin Aug. 2; Detours planned at Tysons Boulevard

Beginning Monday night, Aug. 2, Dulles Corridor Metrorail Project crews will begin overnight mobile paving operations for the gas main relocation in stretches along southbound Route 123 from Scotts Crossing Road to Tysons Boulevard. Some detours will be required at Tysons Boulevard.

These closures are scheduled to occur overnights through August 13. Please be advised that paving is an extremely dangerous activity, so backup alarms may be used for safety reasons. However, crews will make every effort to reduce nighttime noise as much as possible without compromising worker safety.

REMINDER: Intermittent, 10-Minute Closures on Dulles Connector Road (Route 267) at Pimmit Run Bridge Scheduled for Steel Girder Installations

Crews will begin installing large steel beams for the bridge in the median of the Dulles Connector Road (Route 267) over Pimmit Run beginning overnights Tuesday, Aug. 3.

Police will close the left lanes in both directions of the Connector Road for approximately 10 minutes at a time while each girder is lifted and secured in place on the bridge. Additional closures may follow in the coming weeks as concrete, decking and additional bridge superstructure is built.

Major Detour of Eastbound Dulles Connector Road (Route 267) Starts Wednesday, Aug. 4; Toll Road, Airport Access Highway Traffic Affected

Crews will close the eastbound Dulles Connector Road (Route 267) at Route 123 to begin construction on a large overhead concrete structure.

Motorists using the eastbound Connector Road, the Dulles Toll Road and the Dulles International Airport Access Highway will be affected and will be detoured to the southbound I-495 Capital Beltway, then exiting on to northbound Route 123 toward McLean. They will then rejoin the eastbound Dulles Connector Road (Route 267 toward I-66/Washington) from northbound Route 123.

After the initial construction of what is called a “straddle bent,” periodic closures of the Dulles Connector Road will be required as needed over the next few weeks.

Road and Ramp Closures at Northbound I-495 at Route 123 Interchange Aug. 6 at Night

Crews will be shifting the lanes of southbound Route 123 under the northbound I-495 Capital Beltway (Inner Loop) on Friday night, Aug. 6, from midnight to 5 a.m. This will close the following ramps and lanes (detour information listed below):

- On-ramp from northbound Route 123 to northbound I-495
- Off-ramp from northbound I-495 to southbound Route 123

There will also be a 10-minute closure of the two left thru lanes of northbound I-495 and a 10-minute closing of the two right lanes as needed.

Police will be onsite for motorist safety. In case of inclement weather, the work will be rescheduled for the overnight, Saturday, Aug. 7.

Major Paving Operations along Leesburg Pike (Route 7) Continue

During overnights all next week, starting Aug. 3, crews will continue paving all along both directions of Leesburg Pike (Route 7) between the Dulles Toll Road (Route 267) and Chain Bridge Road (Route 123), and on adjacent roads and former service roads.

This paving activity signals the nearing completion of the two-year-long utility relocation efforts along this corridor.

Daytime Lane Closures on I-66 Continue

The left lane of eastbound I-66 will continue to be closed between 9:30 a.m. and 3:30 p.m. Monday, Aug. 3 through Thursday, and 9:30 a.m. and noon on Friday.

This closure is necessary for pier construction in the median of I-66.
