## **Important Lane Closures June 21-25, 2010**

### **Overnight Ramp Closure of the Eastbound Dulles Connector Road (Route 267) to Northbound Dolley Madison Boulevard (Route 123)**

The exit ramp from the eastbound Dulles Connector Road (Route 267) to northbound Dolley Madison Boulevard (Route 123) will close again overnights all next week starting Monday, June 21, so crews can safely install casings.

Traffic on the eastbound Connector Road will be directed to use the exit to southbound Route 123 instead, and then turn left at the bottom of the ramp to access the northbound lanes.

### **Numerous Lane Closings Continue along Route 7**

Motorists using Route 7 in both directions between the Dulles Toll Road (Route 267) and Chain Bridge Road (Route 123) will experience several lane closures near Westwood Center Drive, Spring Hill Road and Westpark Drive/Gosnell Road day and night beginning Monday, June 21.

This work is related to the widening of the median where crews are preparing to build the Tysons Central 7 Metrorail Station, as well as the completion of some utility relocation work. This is the same area where eastbound traffic lanes were shifted 40 feet in recent weeks to create a wider median and work zone.

### **Magarity Road May Close Overnights During the Week of June 21**

Drivers who use Magarity Road in the McLean/Falls Church/Tysons area might experience significant delays some weeknights through the week of June 21 when the road may be closed between Olney Road and Great Falls Street between 9 p.m. and 6 a.m., weather permitting.

The closing is necessary for safety reasons while decking, concrete and additional superstructure is installed on a new bridge that will carry tracks for the Dulles Corridor Metrorail Project in the median of the Dulles Connector Road across Magarity Road. If crews complete this work, the road will remain open.

Drivers are encouraged to detour by using Anderson Road, Chain Bridge Road and Great Falls Street.
