## **I-66 Westbound to Close Overnights Sept. 23-25**

### **Traffic to be detoured to Dulles Connector Road**

I-66 westbound at the Dulles Connector Road (Route 267) will be closed overnights starting tomorrow, Thursday, Sept. 23, through Saturday, Sept. 25, for Dulles Corridor Metrorail Project construction.

Intermittent closings of westbound I-66 have been happening overnight for several weeks because Dulles Rail construction crews are building large concrete structures that straddle the highway between piers. These structures will support bridges to carry the new rail tracks near where the rail extension will merge with Metro's existing Orange Line.

The closings will happen during overnight hours from midnight to 5 a.m. All lanes will be reopened by morning rush hours.

When these lanes close, drivers bound for destinations along I-66 west of Arlington will be affected. Through traffic will be detoured to the Dulles Connector Road westbound, then on to Route 123 south toward Tysons Corner, to a right turn on to the ramp to the Capital Beltway south toward Richmond. Drivers can then rejoin I-66 from the Beltway.

Drivers bound for destinations inside the Capital Beltway may find alternate routes via other local westbound roads by exiting I-66 prior to the I-66/Dulles Connector Road split. For example, traffic bound for the Falls Church City/Broad Street and Idylwood areas can exit before the detour and use Route 29/Washington Street to connect with Broad Street (Route 7 west).

The Dulles Corridor Metrorail Project is a 23-mile extension of Metro's existing Orange Line. The project is managed and owned by the Metropolitan Washington Airports Authority. The design-build construction contractor is Dulles Transit Partners. For information on the project, visit the project website at [www.dullesmetro.com](http://www.dullesmetro.com) or call 703-572-0506.

To report construction-related emergencies, please call the project's HOTLINE at 877-585-6789.
