## **Two Lanes of Northbound I-495 to Close at Route 123 Overnights Next Week**

Beginning overnights on or about Monday, Feb. 14, the two right lanes of the northbound I-495 Capital Beltway (Inner Loop) will be closed between the hours of 11 p.m. and 5 a.m. The closure will continue through Friday night, Feb. 18.

No detour will be necessary for through traffic on I-495. Traffic will be allowed through by using the remaining open lanes, though drivers may expect slower traffic and delays.

However, the exit ramp from northbound I-495 to southbound Route 123 will be closed, requiring a detour. Beltway traffic needing to access Route 123 will be directed to use exit 46B on to northbound Route 123, turn right on to Old Meadow Road, left on Colshire Meadow Drive, left on Colshire Drive, then left on to southbound Route 123.

**Crews will be launching the large blue-and-gray truss and construction the first portion of the bridge that will cross over the Beltway.**

This begins a significant phase of work on the Dulles Corridor Metrorail Project. Intermittent closures of the Beltway will occur throughout 2011 as this bridge work is performed.

*For construction-related emergencies including noise, please use the project **HOTLINE** at **877-585-6789**. For further information about the project, please visit our project website at [www.dullesmetro.com](http://www.dullesmetro.com) or call 703-572-0506.*
