## **Total Closures of DIAAH, Intermittent Closings of Dulles Toll Road Lanes Overnights March 28 and 29**

Motorists using the Dulles International Access Highway will experience overnight closings of eastbound and westbound lanes overnights Monday, March 28 and Tuesday, March 29 because of Dulles Corridor Metrorail construction work.

**Westbound:** The westbound lanes of the Dulles International Airport Access Highway (DIAAH) will be closed from 10 p.m. to 5 a.m., before mile marker 9.1, just past the W&OD Trail.

Westbound DIAAH traffic will be diverted to the westbound Dulles Toll Road via bus ramp exit prior to the work zone. Drivers will follow the toll lanes until being directed back on to the DIAAH via another bus entrance ramp near Route 666 (Monroe St.).

*Drivers will not be required to pay any tolls while using the detour.*

Additionally, the left lane of the westbound Toll Road will also be closed while this work is performed. Traffic will be able to use all remaining lanes of the Toll Road.

**Eastbound:** There will be 15-minute closures of the eastbound Dulles International Airport Access Highway (DIAAH) from 12 a.m. to 4 a.m.

A single left lane closure also will take place also on these days, from 9 p.m. to 10 a.m.

The lane closure will occur between mile markers 8.6 and 8.8, approximately where the DIAAH crosses over Difficult Run because utility crews will be installing duct banks. Traffic will be allowed to travel through the remaining open lanes; **no detour is necessary.**

Drivers should use extreme caution in these areas. Police will be on onsite.

**EASTBOUND CLOSINGS**

**WESTBOUND CLOSINGS**
